

Welcome

Dear Colleagues,

10 years ago the *Stiftung Lebendspende* was founded. The foundation focused on living donation in order to support living donors and to establish the risk factors of living donation.

Today it is our pleasure to invite you to a conference on all topics of living donation in beautiful Munich to discuss with us the present and future of living donation.

The conference is supported by a well acclaimed faculty. Join us in the discussion on screening, preventive measures and outcome in living donors.

We will also discuss future directions in the promotion of living donation and the ethical and legal challenges which are awaiting us.

We sincerely hope that you will be able to accept our invitation so that we can meet in Munich.

Prof. Dr. Dr. h.c. U. Heemann

Prof. Dr. Heide Sperschneider
