

ESOT TLJ 3.0

## Communication Resources

August 2022 - updating

# Introduction

Transplantation Learning Journey (TLJ) is a leading international transplantation event, providing the transplant community with a unique opportunity to discuss and build new guidelines and shape the future clinical pathway of transplantation with ESOT. Building on the past two editions of the event, TLJ 3.0 will bring the project to the next level by providing the scientific and transplant community with **methodologically solid, consensus-based guidance documents** on clinical practice to improve the care of people with transplants. ESOT will bring together experts who will discuss pre-agreed topics and carry out evidence-based reviews. The evidence will be weighed, and preliminary statements will then be developed on these topics. The culmination of the process will take place in Prague (13-15 November 2022) where the topics will be debated with the aim of reaching a robust consensus for the transplant community.

**Working together to improve the lives of people with transplants.**

## Organising Committee

• Umberto Cillo – Conference Chair • Raj Thuraisingham – Conference Co-Chair

## Scientific Committee

• Ina Jochmans – Scientific Committee • Liset Pengel – Scientific Committee • Nuria Montserrat – Scientific Committee • Nazia Selzner – Scientific Committee • Annemarie Weissenbacher – TLJ 3.0 Conference Scientific Coordinator

# Introduction

Carefully selected by the Scientific Committee, nine topics cover a selection of the most exciting and emerging themes in the transplantation field. Over a robust selection period lasting a few months, we identified and prioritised topics that will benefit from an in-depth analysis of current scientific evidence and, ultimately, provide the transplant community with solid consensus papers.

The topics for TLJ 3.0 are as follows:

– Cardiothoracic Topics:

**Machine perfusion in cardiothoracic transplantation**

– Kidney Topics:

**Histopathological analysis of pre-implantation donor kidney biopsy: Redefining the Role in the Process of Graft Assessment (Part 1)**

**The value of monitoring (subclinical) donor specific antibodies (DSAs) for kidney transplant outcomes**

– Liver Topics:

**Liver transplantation in patients with Primary sclerosing cholangitis (PSC) and inflammatory bowel disease (IBD)**

**Clinical Endpoints in liver transplantation according to value based care**

**Downstaging, bridging and immunotherapy in liver transplantation for HCC**

– Pancreas Topics:

**Role of Pancreas Machine Perfusion to Increase the Donor Pool for beta cell replacement**

– Transversal Topics:

**Prehabilitation for solid organ transplant candidates**

**Molecular Biology Testing for Non-Invasive Diagnosis of Allograft Rejection**

# Important information

For this edition, ESOT has selected 9 topics. For each topic, the nominated Steering Committees will conduct evidence-based reviews, grade the evidence, and develop preliminary statements that will be discussed and voted in Prague by a wider panel, including jury members. Experienced professionals and members of the patient community registering to TLJ are invited to actively contribute and to apply to [become jury members](#) during the registration process. Trainees will have the opportunity to follow the work of the panels as observers, selecting the topic they find most relevant to their future career.

All confirmed and actively participating jury members will be mentioned as **final paper** contributors. Jury members will also receive a **free ESOT membership for 1 year** and will benefit from a **discount to register to the ESOT Congress 2023**.

## 15 September [early registration deadline]

TLJ 3.0 Consensus registration	Education Track registration
TLJ full registration gives you access to all sessions dedicated to the 9 consensus topics including: <ul style="list-style-type: none"><li>• Educational sessions on Sunday [EDU]</li><li>• Opening and Consensus discussions sessions on Monday [CONSENSUS]</li><li>• Voting sessions on Tuesday and closing session [VOTING]</li></ul>	The Education Track registration gives you access only to the following: <ul style="list-style-type: none"><li>• Educational sessions on Sunday [EDU]</li><li>• Educational workshop on Guideline Development on Monday and Tuesday [EDU]</li><li>• Conference opening and closing sessions</li></ul>
Member: EUR 350   Non member: EUR 480   Trainee: EUR 100   Health Allied Professionals: EUR 100   Individual patient / Patients advocate: EUR 0   Industry: EUR 700	Unique fee: EUR 200 <b>Places are limited to 30 participants and will be assigned on a first come, first served basis.</b>
